

# ALLPLAN STUDENT CONTEST 2025 Rules & Regulations

## 1. Participation in the contest

This contest is free of charge and accessible to all students that are using an official, registered ALLPLAN, SCIA, FRILO/DC or SDS2 student license. Students that already graduated in 2024, may also still participate. Professionals however, cannot participate. The contest starts on April 15, 2025 and will be closed September 15, 2025.

Students in this contest may submit a single project for which ALLPLAN, SCIA, FRILO/DC or SDS2 software has been used to realize his/her academic study work. Projects that have already been submitted in any SCIA contest before are not allowed to participate again.

By taking part in this student contest, the participant confirms to have read and fully accepted the contest rules.

## 2. What kind of student projects are allowed?

Four different kinds of student projects are allowed:

- **Thesis Projects**  
Dissertation projects involving the students own personal research.
- **Study Projects**  
Projects that the student studied on during practical class. Often such projects are done in small teams of 2 or more.
- **Recalculation Projects**  
Projects reporting on the analysis and redesign of well-known iconic constructions or historical buildings.
- **Internship Projects**  
Projects the student worked on during his/her internship in an engineering / construction company.

## 3. Conditions of Participation

Each participant has to fill in the registration form and use the provided Adobe PDF template file, in which he / she can complete the project. A zipped file, containing all documents must uploaded via or can be sent to [studentcontest@allplan.com](mailto:studentcontest@allplan.com) or made available for download via [wetransfer.com](http://wetransfer.com).

On 15 September 2025, the contest will be closed. By this date, all the required project documentation must be complete and be in the possession of ALLPLAN, the organizer. Only projects that meet the minimum requirements will be accepted and evaluated by the jury.

By taking part in this student contest, the student grants the contest organizer, its subsidiaries, agents and distributors the permission to use the submitted material for any kind of publication such as the student contest book, websites, newsletters, testimonials, brochures, advertisements, press activities, social platforms or any other way. By participating, the participant also certifies that there are no copyrights owned by any third party on the submitted material or the participant has explicit permission by the owner or responsible professor to use it.

## 4. Prizes, Jury and Evaluation of the Projects

An internal jury, composed of highly educated ALLPLAN engineers, will gather in September 2025 for the evaluation of the submitted projects.

This jury will assess the projects taking the following characteristics into account:

- The technical level of the design, detailing and/or the calculations. Demonstration of a BIM workflow, sustainability and environmental conditions are encouraged.
- The optimal use of the functionalities of the used software programs
- The attractiveness and completeness of the student project and the way it has been presented in the submitted documents.

The winner will receive a cash price of 1000€, with second place receiving 750€, and third, fourth, and fifth place receiving 500€ each. Sixth, seventh, eighth, ninth, and tenth place will receive a goodie bag each.

## 5. Confidentiality

All information contained in the entry files will remain confidential until the date of the official announcement of the winner. The members of the jury are bound to secrecy in their deliberations and have only temporary access to all project materials during the evaluation period.

## 6. Project documents required

Each submitted project needs to contain the following parts: Required:

- The fully completed Adobe PDF Template containing all details about the student's contribution.
- Amongst others, a short project description and a quote about how the software (ALLPLAN, SCIA, FRILO/DC or SDS2) has been deployed by the student for his/her project.
- A PDF file with detailed information such as a thesis, a study project assessment, a report of a recalculation project or an internship study work.
- Screen captures and/or exported imagery in highest resolution.
- The ALLPLAN, SCIA, FRILO/DC or SDS2 software files of your project.

Optional:

Any other files that might interest the contest jury and increase your chance of winning, such as high-resolution digital photos and/or virtual images of the project, movies, vlogs, presentations, engineering reports, logo of the university or school, etc.

More detailed information on what is required is explained in the Registration Form Adobe PDF Template.

## 7. Organization of the Contest

The contest is organized by ALLPLAN, Konrad-Zuse-Platz 1, 81829 Munich, Germany. Email: [studentcontest@allplan.com](mailto:studentcontest@allplan.com).

The contest may be interrupted, postponed or cancelled due to unforeseen circumstances. Entrants waive any right to complain or claim compensation in respect of this decision.
